Yard Waste Pickup Resumes During the Week of April 20

The City of Farmington Hills and Waste Management are pleased to inform residents that yard waste collection will begin again during the week of Monday, April 20, 2020.

Please put your yard waste out on your scheduled pickup day. Due to anticipated heavy volumes during the week, however, some yard waste stops may not be picked up on the regular service day. Please leave your yard waste at the curbside and Waste Management crews will work to recover the material as quickly thereafter as possible based on crew availability. Please note that the suspension of bulk collection remains in place at this time until further notice.

Waste Management's front-line employees are working around the clock to ensure that service is provided to communities safely and with the least amount of disruption reasonably possible in the face of the many challenges created by the COVID-19 virus, and the resulting Declarations of Emergency. Waste Management remains committed to providing collection and processing services with the health and safety of employees, customers, and communities as their highest priority.

The City of Farmington Hills and Waste Management will continue to provide prompt notice of any potential disruption of services that may occur due to changes in operational capabilities. Your understanding and cooperation during these challenging times is greatly appreciated.
